# INTRODUCTION

The New Jersey State Library annually compiles statewide library statistics to help libraries analyze and improve programs and services. Trustees and library directors use the statistics to develop and justify budgets and for comparative evaluation of programs, staffing practices and collection development. School and college library staffs use the statistics to identify interlibrary loan resources and to establish cooperative service programs.

Public library services in New Jersey are provided primarily by three types of libraries:

1) **Municipal** - library established by law following a referendum in which the majority of voters decided to establish such a library. It is supported by taxes and is governed by a seven-member board, appointed by the mayor, which must include the mayor and the superintendent of schools. There are 222 municipal libraries identified in the tables by an **M**.

2) **County** - library established by law following a county-wide referendum approved by a majority of voters. It is supported by taxes and governed by a board known as the county library commission, composed of five members appointed by the freeholders. There are 14 county libraries identified in the tables by a **C**.

3) **Association** - library established, governed and supported by an association of citizens. Such an association is incorporated, forms its own constitution, appoints or elects its own board and is responsible for operation of the library. It may receive tax support from the local governing body. Only those association libraries whose services are free to the public are included in this publication. Some libraries formerly listed as association libraries are now branches or stations of their county libraries. Assocation libraries, numbering 73, are identified in the tables by an **A**.

   **NOTE:** Five Association libraries, previously considered to be stations have again been listed as libraries for 1985: in Burlington County, Burlington City, Chesterfield Twp., Florence Twp. and Southampton Twp.; in Monmouth County, Union Beach.

In addition, there are six **joint** libraries in New Jersey which are identified in the tables by a **J**. A joint library is established by law following a referendum in two or more municipalities which was approved by the majority of voters. It is governed by a board appointed by the mayors of the participating municipalities.

The State Library has designated 26 libraries as **area** libraries. Each of these libraries is a headquarters library under contract with the state for specialized services to libraries within a given geographic area. The 26 area libraries are indicated in the tables by an asterisk (*) before the library name.

Summary tables show the number and percentage of population served by public libraries (Tables 1 and 2), libraries according to size of population served (Table 3), libraries according to total expenditures (Table 4), libraries according to type and total expenditures (Table 5), and by the Regions of New Jersey (see page 41).

Tables showing individual library statistics by county and a state summary constitute the body of this publication. These data include the 1985 New Jersey state population estimate figures for population served and equalized valuation. Where a public library is supported by more than one municipality, the figures shown represent combined municipalites. New for 1985 is a table listing the populations of the unserved municipalities, by county.

On pages 6-8, the set of tables on salaries restored for 1985 is continued: "Salaries Budgeted by New Jersey Public Libraries in 1986 for Full-Time Certified Professional Librarians: Library Directors and Starting Professional Librarians Without Experience." These salary tables are presented by Population Group, Total Library Expenditures Group, and Region of New Jersey.

Explanation of the column headings follow. Where data has been taken from annual public library statistical reports for 1985, the line number of the report used is given in parentheses at the end of the explanation of each column heading below.

| Column Heading | Explanation |
|---|---|
| POPULATION SERVED 1985 | Total population of New Jersey as of July 1, 1985, was 7,562,482, as stated in the **Population Estimates for New Jersey, July 1, 1985,** Provisional, issued by the Office of Demographic and Economic Analysis, New Jersey Department of Labor (September 1986). An estimated 7,473,383 of this population were served by a public library, defined as the accessibility of a public library within a municipal boundary or service provided by a county library. As indicated in the tables, two municipalities contract for library service. Their populations total 13,312. The remainder of the population, 75,787, is unserved, residing in municipalities not served by a county library or any local library.<br>The population served by a county library is the total of all municipalities which provide tax support, including the populations of the member-libraries listed below the county-library entry. |
| EQUALIZED VALUATION | Equalized valuation of municipalities is supplied by the Division of Taxation, New Jersey Department of the Treasury, 1985 (Conformed Copy). Amounts are shown to the nearest thousand dollars and exclude municipalities which do not officially support library services. For county libraries, the equalized valuation reported is the total of all municipalities which provide tax support. |
| INCOME: LOCAL TAX | Local tax support is shown as reported by individual libraries as the sum of appropriated and additional tax support. (Line 14)<br>NOTE: Calculation of State Library Per Capita Aid is based on amounts expended from municipal or county budgets for library purposes. |
| INCOME: PER CAPITA STATE AID | Amounts shown as **per capita state aid** were reported as paid in 1985 to municipalities and counties with libraries. State Aid to area libraries, research libraries and emergency aid/incentive grants is not shown in this column. (Line 16)<br>**NOTE:** Comparison of data in this column with that of 1983 and 1984 should be made with the knowledge that especially 1984 state library aid may have included late 1983 payments as well as supplemental checks, whereas the 1985 data includes only the payments for 1985. |
| INCOME: TOTAL | Amounts shown are library operating income from all sources (Line 24), but excluding the balance brought forward from the prior year (Line 11). State aid to area libraries, research libraries and for emergency aid/incentive grants is included. (Line 24 - Line 11) |

| Column Heading | Explanation |
|---|---|
| EXPENDITURES: SALARIES, WAGES AND BENEFITS | Amounts reported here include salaries, wages and fringe benefits paid in 1985 to all library employees, including maintenance personnel, whether paid from the library budget or from the municipal or county budget. Retirement benefits paid are excluded. (Line 28) |
| EXPENDITURES: LIBRARY MATERIALS | Included are the amounts expended for books, periodicals, newspapers, microforms, all other non-print materials and binding. (Line 33) |
| EXPENDITURES: TOTAL | Total expenditures for 1985, as reported by libraries, represent current operations and exclude amounts spent for capital improvements, repayment of loans, etc. The difference of total expenditures, less those for salaries, wages and benefits and for library materials, represents all other operating expenditures. (Line 37)<br>NOTE: Total Expenditures may exceed Total Income, since the balance carried forward from 1984 (Line 11) has been deducted to yield current-year income. |
| PER CAPITA: LOCAL EXPENDITURES | These amounts are derived by dividing total expenditures by population served. This column excludes amounts paid by municipalities in support of county libraries. |
| PER CAPITA: EXPENDITURES INCLUDING COUNTY TAX | For county libraries and county-library members, these amounts are derived from the sum of total local expenditures and county-library tax support paid, divided by population served. (While amounts paid by municipalities in support of a county library are not printed in these tables, they are included in these computations and were taken from county abstracts of ratables.)<br>NOTE: For Morris County libraries, both Level I and Level II taxes paid are used in this column. |
| STAFF: PROFESSIONAL CERTIFIED | Numbers appearing in this column represent full-time and part-time librarians who hold New Jersey Professional Librarian Certifications. (Line 42a) |
| STAFF: FULL TIME | In this column, the number of individuals working full-time for a minimum of 30 hours per week as of December 1985 is reported. (Line 39b) |
| STAFF: FULL-TIME EQUIVALENTS (FTE) | This column represents the total of part-time and full-time employees equated to a number of full-time positions. The minimum work week is assumed to be 30 hours. (Line 42b) |
| VOLUMES OWNED YEAR END | These amounts represent the number of books (including books in microform if cataloged) reported as owned at the end of 1985. Other materials which are prepared, cataloged and recorded in the same manner as books are also reported here. (Line 47b) |

| Column Heading | Explanation |
|---|---|
| VOLUMES: PER CAPITA | These amounts are derived by dividing the number of volumes owned at the end of the year by the population served. |
| VOLUMES: PURCHASED DURING YEAR | This column reports the number of volumes purchased (including books in microform if cataloged) by public libraries in 1985, exclusive of gifts and volumes supplied by county libraries. (Line 45b) |
| TOTAL CIRCULATION | Reported here is the total circulation of library materials, adult and juvenile, including reciprocal borrowing, loans of library materials in bulk to other institutions and interlibrary loans. (Line 58) |
| SUBSCRIBED PERIODICALS | Numbers shown equal reported number of current paid subscription titles, including newspapers and magazines other than annuals, at the end of 1985. (Line 48) |
| HOURS OPEN WEEKLY | This column reports the number of hours per week the main library was open for public service during the major part of 1985. (Line 60) |

## AVERAGES

Averages have been calculated for county-member subtotals, county summaries, and state totals for the following columns: Per Capita Local Expenditures, Per Capita Expenditures Including County Tax, Volumes Per Capita, and Hours Open Weekly.

## AVERAGE PRICE PAID FOR BOOKS IN 1985 BY NEW JERSEY PUBLIC LIBRARIES

### Average Price Paid Per Volume in 1985: $11.18

Many libraries use the average price per volume to assist in setting their budgets for library materials and to meet the State Library Aid Administrative-Code criteria for number of volumes purchased. As detailed in the New Jersey Administrative Code, 6:68-1.5(b), the funds spent for audiovisual materials, when divided by the average price paid per volume in the most-recent year published, gives an equivalent number of volumes which may be added to the number of print volumes purchased. Alternately, the total materials expenditure (except periodicals) may be divided by the average price per volume to yield the total number of volumes purchased.

From the 1985 annual statistical reports, Line 29 (Columns a+b), "Expenditures for Books," totaled $12,539,565 for the 305-public libraries reporting. The total of Line 45, "Book Stock: Number of Volumes Purchased," was 1,121,320. Thus, the average price per volume purchased in 1985 was $11.18.

The $11.18 average price for 1985 will be used in 1987 for calculation of the FY 1988 State Library Aid requirement for the number of volumes purchased in 1986.

## PER CAPITA EXPENDITURE FOR NEW JERSEY PUBLIC LIBRARIES BY COUNTIES, RANKED FOR 1985 AND PRIOR YEARS

| County | Per Capita Expenditures | Rank | | | | | | |
|---|---|---|---|---|---|---|---|---|
| | 1985 | 1985 | 1984 | 1983 | 1982 | 1981 | 1980 | 1979 |

## NEW JERSEY PUBLIC LIBRARIES
## SUMMARY OF SERVICE

### TABLE 1
### STATE POPULATION

TOTAL STATE POPULATION 7,562,482

---

## NEW JERSEY PUBLIC LIBRARIES
## SUMMARY OF SERVICE

### TABLE 2
### POPULATION SERVED

| | POPULATION | PERCENT OF STATE POPULATION |
|---|---|---|
| POPULATION SERVED | 7,473,383 | 98.82 |
| POPULATION NOT SERVED | 89,099* | 1.18* |
| | ========= | ====== |
| | 7,562,482 | 100.00 |

*Two otherwise-unserved municipalities contract with other municipal public libraries for library services:

| | | | |
|---|---|---|---|
| Englewood Cliffs (see p. 15) | 5,741 | | |
| Guttenberg (see p. 24) | 7,571 | | |
| Total Population, Contracting Municipalities: | | 13,312 | 0.18 |
| With the 13,312 population counted as "Served," the "Not Served" population amounts change to: | | 75,787 | 1.00 |

The following tables are based upon the "Population Served" of 7,473,383, which excludes the two municipalities contracting for library services.

| SUMMARY | $4,834,438 | 621,914 | 61 | 8.22 | $7.77 |

### LIBRARY TYPE=4. COUNTY LIBRARIES & MEMBERS (2+3)

| TOTAL EXPENDS | POPULATION$^x$ | NUMBER OF LIBRARIES | PERCENT OF STATE POPULATION | EXPENDITURES$^y$ PER CAPITA |
|---|---|---|---|---|
| $32,337,042 | 2,318,442 | 75 | 30.66 | $13.95 |

### LIBRARY TYPE=5. STATE TOTAL (1+2+3)$^z$

| TOTAL EXPENDS | POPULATION$^x$ | NUMBER OF LIBRARIES | PERCENT OF STATE POPULATION | EXPENDITURES$^y$ PER CAPITA |
|---|---|---|---|---|
| $117,523,854 | 7,463,675 | 305 | 98.69 | $15.75 |

## Notes on Table 5: "Libraries According to Type and Total Expenditures"

x. **Population** served totals in this table **exclude** the population of the three (3) non-respondent municipal and exempt libraries having a total population of 9,708.

y. **Expenditures per capita** in this table **exclude** the populations of the three (3) non-respondent municipal and exempt libraries, whereas the statewide summary sheet for the 1985 public library statistics includes these people. Hence, the variance in per-capita expenditures: $15.73 with the additional 9,708 population included; $15.75 with them excluded.

z. In computing statewide totals for this table, add together "Library Types":

**Total Expends.** = 1+2+3
**Population** = 1+2 (since 2 includes population of 3, 3 is excluded here)
**Number of Libraries** = 1+2+3 (note that 10 non-respondents are excluded)
**Percent of State Population** = 1+2, but note **exclusion** of 9,708 non-respondent library population.

**Expenditures Per Capita** = $\dfrac{\text{5. Total Expends}}{\text{5. Population}}$

# ACKNOWLEDGMENTS

Acknowlegment is made to the Library Research Center, Graduate School of Library Science, University of Illinois at Urbana-Champaign, whose **Analyses of the 1979-80 Illinois Public Library Statistics** (1980) provided the model, general format and some of the analytical measures used in this publication.

Other useful data was obtained from **Output Measures for Public Libraries: A Manual of Standardized Procedures,** by Douglas Zweizig and Eleanor Jo Rodger, American Library Association (Goals, Guidelines and Standards for Public Libraries Committee, Public Library Association), 1982.

The computer programs needed for this compilation were developed by the Bureau of Information Resources Management, Division of Administration, New Jersey State Department of Education.

Word-processing of the introductory material in this volume was done by Donna G. Wooton. Cover design was by Carol J. Du Bois.

# PREFACE

This publication continues to evolve from an experimental one to a format that will be more standard in future years.

Made possible by the inputting of 1985 data into the public library data base, the purpose of this volume is to add meaning to the statistics of New Jersey's diverse public libraries. By reducing such large amounts as equalized valuation to a per-capita basis and by looking at circulation of library materials in light of the number of volumes held, for example, libraries small and large can be viewed in a new way.

For the **1985 Analyses . . .** volume, two major additions begun in 1984 have been continued. Summary data analyzing the six Regions of New Jersey is included, beginning on page 12. This regional analysis ties to the new regional summaries in the **New Jersey Public Library Statistics for 1985.** The second new feature incorporated for 1985 is a rank ordering of public library local tax support per $1,000 of Equalized Valuation. This measure compares local tax support for the public library to the true value of real property of the municipality or county, by dividing the former amount by the latter. In ranking these values from low to high and by giving population and total expenditures for each public library so listed, it is hoped that public libraries will have been given another method to compare their local tax support with those of other libraries of a similar size.

Since this publication is intended to assist the public library director and board of trustees, your comments and suggestions are welcomed and needed. Please send me your ideas at your earliest convenience.

Oliver P. Gillock, Jr.
Coodinator, Library Planning and
Development
New Jersey State Library

# INTRODUCTION

**Analyses of New Jersey Public Library Statistics for 1985** interprets data obtained from the annual reports of 305 public libraries. Using data published in **New Jersey Public Library Statistics for 1985**, this publication analyzes data in several different ways.

The libraries have been divided into groups by population and expenditure levels. Therefore, each library is listed twice. After each population or expenditure listing, a page follows which gives the arithmetic average, standard deviation, high, low, three percentile ranks and number of libraries reporting, calculated for each data element. The top half of each "averages and percentiles" page presents columns previously published in **New Jersey Public Library Statistics for 1985.** The bottom half of each page gives columns for this volume. (Because of limitations of computer-formatted printing, some columns may appear in a different grouping, but all columns are listed in the same order on all pages.)

The **average** (arithmetic mean) is the sum of the data for all libraries in a group divided by the number of libraries in that group. The **standard deviation** is a measure of distribution around the average of the values for all libraries in the group. In a normal distribution, roughly two-thirds of the values fall within plus-or-minus one standard deviation from the mean. The **maximum** is the highest value reported for the group; the **minimum** is the lowest value reported. The three **percentile** ranks, **75th, 50th,** and **25th,** are the values below which 75% of the group, 50% of the group, and 25% of the group are found.

For items summarized from the **New Jersey Public Library Statistics for 1985,** see pages 2-4 of that publication for definitions of the column headings.

Each library is listed by **LIBRARY NAME, POPUL SERVED 1985** (in the population listings), or **TOTAL EXPENDS** (in the expenditures listing), and **CO,** a two-digit **COUNTY** code, for which a key is provided in the County/Statewide Summary.

Several ratios and percentages for each library were calculated from the data available, as defined above. They are as follows:

| **Column Heading** | **Explanation (All data is for 1985)** |
|---|---|
| **EQ VAL PER CAP ($)** | **Equalized valuation per capita, in dollars:** "Equalized valuation" is the true value of real property within a local taxing district, computed from the aggregate assessed valuation and actual sales of property, and used to distribute equitably State school and library aid, apportion county taxes, and measure municipal debt limits. The population count used is that listed in the **New Jersey Library Statistics** for this year. |
| **LOC TX SUP PER $1000 EV** | **Local tax support per $1,000 in Equalized Valuation:** Local tax support (income) for the public library per $1,000 in Equalized Valuation. This is a measure of the local support of the library compared to the true value of real property of the municipality or county. |
| **LOC TAX SUP PER CAP ($)** | **Local tax support per capita, in dollars:** The library income from local tax sources, per capita. This is another measure of the local support of the library. |
| **LOC TAX SUP % OF TOT INC** | **Local tax support as a percentage of total income:** The percentage of the library's total current operating income from local tax support. |

| Column Heading | Explanation |
|---|---|
| PCSA % OF TOT INC | **Per Capita State Library Aid as a percentage of total income:** The percentage of the library's total income from the category of state library aid known as "per capita" aid. |
| PCSA % OF LOC TX SUP + PCSA | **Per Capita State Library Aid as a percentage of the sum of local tax support and Per Capita State Library Aid:** The percentage of the library's total budget from local-tax and state-aid sources that Per Capita State Library Aid represents. |
| SAL, W, B % OF TOT EXP | **Salaries, wages and benefits as a percentage of total expenditures:** Percent of total expenditures spent for salaries, wages and benefits of library employees, including maintenance personnel. |
| LIB MAT % OF TOT EXP | **Library materials as a percentage of total expenditures:** Percent of total expenditures spent for all library materials. |
| CIRC PER CAP | **Circulations per capita:** Number of circulation transactions per capita of the population served. |
| CIRC PER FTE | **Circulations per full-time equivalent staff:** Number of circulation transactions per full-time equivalent staff (based on a minimum 30-hour week, or actual). |
| CIRC PER VOL HELD | **Circulations per volumes held:** Number of circulation transactions per cataloged volumes in the collection at the end of the year. |
| CIRC PER HRS OPEN | **Circulations per hours open:** Total weekly circulation transactions per number of hours main library was open for public service in a week. |
| PROF % OF TOT STAFF | **Professionals as a percentage of total staff:** Percent of total library staff holding a New Jersey Professional Librarian Certification. |
| FTE PER M POP | **Full-time equivalent staff per 1,000 population:** Number of full-time equivalent staff per 1,000 population. |
| FTE PER WK HRS OPEN | **Full-time equivalent staff per week hours open:** Number of full-time equivalent staff per number of hours main library was open for public service in a week. |
| VOLS PER CAP | **Volumes per capita:** Number of cataloged volumes in the collection at the end of the year, per capita. |
| % VOLS ADDED | **Percent of volumes added:** Percent of volumes held that were purchased and added to the collection. |

| Column Heading | Explanation |
|---|---|
| VOLUMES ADDED PER CAP | **Volumes added per capita:** Number of cataloged volumes purchased and added per capita. |
| TOT EXP PER CAP ($) | **Total expenditures per capita, in dollars:** Total library expenditures in dollars per capita. |
| MAT EXP PER CAP ($) | **Materials expenditures per capita, in dollars:** Library materials expenditures in dollars per capita. |
| TOT EXP PER CIRC ($) | **Total expenditures per circulation, in dollars:** Total library expenditures in dollars per circulation transaction. |
| TOT EXP PER HR OPEN ($) | **Total expenditures per hours open, in dollars:** Total library expenditures in dollars per number of hours main library was open for public service in a week. |

These ratios and percentages are shown first by county and statewide summary, then by Regional subtotals. Next, the averages and percentiles of the printed and derived data are presented in statewide and regional summaries. Then, ratios and percentages are shown for each library individually within each population or expenditure group. After each population group or expenditure category, the averages and percentiles of the printed and derived data are given.

The averages for ratios and percentages are based on data in each case for all libraries taken separately rather than the total of one data element divided by the total of another element.

As indicated in the Preface, a ranking of local tax support per $1,000 of Equalized Valuation has been continued: All computed values for the variable "LOC TX SUP PER $1,000 EV" have been ranked from low to high for all 305 libraries reporting. Percentiles (25th, 50th, 75th and 100th) are given for all libraries reporting and are presented by county, population served, and expenditure categories. Where a " . " is printed, the variable has not been computed because data was missing.

## Comparisons Among Groups of Libraries

Study of the averages gives a good general picture of each population group and each expenditure level. The average of each data element not only describes the group as a whole but also can provide interesting comparisons with other groups. For example, a county library may wish to compare its member libraries and itself with other county library systems.

Comparisons among different population groups or expenditure categories can suggest general trends. For example, **local tax support per capita** increases from $3.41 in the $0-24,999 expenditure category, then rises steadily from $6.63 in the $25,000-49,999 group to $16.95 in the $500,000-999,999 group, then falls slightly to $15.74 for the over-$1,000,000 category. The average library's local tax support per capita in New Jersey is $12.31.

**Library materials as a percentage of total expenditures** generally decreases with population and also trends downward with increasing expenditure levels: the four population categories under 15,000 have averages of 18.3, 18.2, 18.2, and 15.4, respectively. The two categories from 15,000 to 25,000 population are 14.2 percent, rise to 14.3 (25,000-37,499), then drop to 13.0 and 12.2, and finally go up to 14.1 for the over-100,000 category, with a New Jersey average of 15.9. By the ten expenditure groupings, this measure begins at 19.0 percent for those in the $0-24,999 category, then 18.1, 19.2, 13.8, 17.3 ($100,000-149,999), 16.0, 16.0, 13.3, 12.6 and ends with 13.1 for the over-$1,000,000 category.

**The percent of total staff with a professional librarian's certificate** tends to rise as the population and expenditure categories rise, but only to a certain point. Among the smallest population category, under 5,000, 9.2 percent was the average reported. For the 5,000-7,499 category, the percent rose to 24.7, then 22.0, 26.3, 27.0, peaking at 29.6, 29.3, 28.0, 27.8 and 28.5 (100,000 or over), with a statewide average of 23.9 percent. Among expenditure categories, this measure begins at 11.6 percent for the $0-24,999 category, drops to 11.5 (for $25,000-49,999), rises to 14.7 and peaks at 29.3 for the $75,000-99,999 category, then first drops and then trends upward from 25.9, 26.9, 28.1, 28.7, and 29.7, to 28.6 percent (for $1,000,000 and over).

As can be seen in the tables below, **equalized valuation per capita** trends downward as population increases, but does not change as substantially when total expenditures increase. **Local tax support per $1000 in equalized valuation,** on the other hand, appears to increase as both population and expenditure levels rise. **Local tax support as a percentage of total income** generally rises through the 20,000-24,999 population categories, then decreases slightly in the larger libraries to about the statewide average. Similarly, **salaries, wages and benefits as a percentage of total expenditures** increases generally with population and expenditure levels, dropping only in the largest population group and the largest expenditure category. Like the percentage of professional staff measure, that of the **number of full-time equivalents per 1,000 population** begins at about the state average in the smallest population category, drops and then rises to 0.59 and 0.60 in the 15,000-19,999 and 37,500-49,999 groups, respectively, while rising steadily in the expenditure table through all categories including $200,000-349,999 (at 0.64), then essentially leveling off in the higher-expenditure categories.

## Suggested Use Of The Tables

Individual libraries can readily be compared with others in the same population-size group or the same expenditure category. For example, the **Bergenfield Free Public Library** serves a population of 25,413 and has total expenditures of $573,897. It is listed individually in the tables for **"Population=25,000-37,499"** and **"Total Expenditures=$500,000-999,999."** When compared with other libraries in the same population group (see page 41, **"Averages and Percentiles of Statistics...Population = 25,000-37,499"),** Bergenfield's **local tax support per capita** is $18.53, above the group average of $13.41, and slightly lower than (or equal to) 75% of the libraries in its population group, since the 75th percentile is $18.54. Its 9.1 **circulations per capita** is about 1.6 times the average of 5.8 and above the 75th percentile of 8.9. Other evidence of active collection use is that of **circulations per volume held,** which at 2.9 is well above the group average of 1.8 and higher than 75% of the libraries in its population group (at 2.3). Bergenfield holds 3.14 **volumes per capita,** equal to the group's average, but somewhat below the top 75% of the libraries (3.70).

When compared to other libraries in the same expenditure category, Bergenfield's **local tax support per capita** ($18.53) falls below the 75th percentile ($24.71), but its **circulations per capita** (9.1) remain equal to the 75th percentile. Bergenfield's **total expenditure per circulation** is $2.49, well below the expenditure-category average of $3.62 and below the 25th percentile ($2.89).

With this brief example, it can be seen that any library can compare itself not only with other libraries but with other groups of libraries.

In order to make the tables in this volume as meaningful as possible, data which are missing have been excluded from the calculations. Where a data element cannot be computed, an **X** is printed in the column. In figuring averages and other statistics for the group, that library's ratio or percentage is deleted.

A final word of caution on interpretation of the tables in this volume. Although every effort has been made to include only meaningful information in the calculations, one or two libraries which are very different from the group as a whole can alter the averages enough that a truly representative picture is not shown, especially when the total group is small. This may be so in certain columns, especially in the largest population group and highest expenditure category, as well as the statewide totals. Because of very high values reported by some large libraries, those averages and standard deviations may be distorted. In such cases, the percentile rankings will be less influenced.
